STAKEHOLDER CONSULTATIONS SUMMARY

MINUTES OF THE D.P.M.U MEETING OF TUTING CLUSTER SHYAMA PRASAD MUKHERJEE RURBAN MISSION HELD ON 9th AUGUST 2016 AT DC'S CONFERENCE HALL YINGKIONG.

The third meeting of District Project Management unit of Tuting RURBAN cluster mission was held on 9th August 2016 under the Chairmanship of Sri Remo Kamki Deputy Commissioner, Upper Siang Dist. DC- cum-Chairman (DPMU) Tuting RURBAN Cluster.

While extending welcome to all the HoD representing various Departments the Chairman informed the house that for Tuting RURBAN project this is the third time consultative meeting. The first one was held on 03/03/16 for appraisal on central approval of the first only project of RURBAN MISSION in favour of Tuting Sub-Division and necessary Notification on constitution of RURBAN DPMU & CDMU in continuity of the notification issued by the State Govt for SLEC/SINA/STSA. This Project shall cover 12 villages and Tuting HQ under 06 gram panchayats as Rurban Cluster area.

The 2nd one was held on 5th May 2016 at DC's Conference hall was to sensitise and disseminate Deptt. data's and activities going over in this cluster villages to ICAP team constituted under the team leadership of PD DRDA, BDO Tuting being Member Secy of DPMU & CDMU of this Mission by touring the cluster area and interacting stake holders, PRI members for capturing ground realities.

Now the ICAP team have completed the works on data's of project area cluster villages and deficiency analysis on basic amenities, economic, social, digital profiles were drawn, Gram Sabha resolution on work and sector priorities were obtained as required under frame work of the mission component step by step process have to be completed giving transparent and active participation from the stake holders, mandated PRI body. Accordingly the stake holders, Gram panchayats and intermediate panchayat members have a series of consultative discussion at Village level and recently at intermediate panchayat body. They have resolved and passed the ICAP documents as the true version of the opinions and choices that were agreed and resolved in their participatory process in this RURBAN Mission and it will assure them modern amenities of life and they shall be benefitted.

Today this meeting is called upon to obtain the opinion of the various Deptt. for convergence approach. Necessary consultation and guide in other uncovered data deficiency areas were rectified after due consultation by PD H. Basar with the Commissioner RD & Director RD. The conceived work list with priority, desirable component approx cost probable mode of convergence with the concerned deptt is clearly spelt out and document is placed for your opinion on table.

Hence DC requested each concern deptt at dist level to put on their inputs/decision on convergence approach as per ICAP documents drawn up for further decision by the govt. at the state level under the chairmanship of the Chief Secretary who is heading the State Level Empowered Committee on Tuting Rurban Cluster with Commissioner RD as member secretary and all Commissioners/Secretaries of line deptt as members for finalisation on fund

matter of Rurban CGF with that of convergence fund. The sector like LPG dealership, Godown, oil depot of course have no fund sharing from Rurban being public sector undertaking but has to go by PPP mode involving pursuing with concern ministry level.

Ending up his speech, DC directed PD DRDA to add comments, clarification on convergence and work list placed in the meeting.

PD DRDA Hengo Basar stated that as per ICAP survey data on many areas were lagging and confusion and left out issues were refined and inclusion were done under the supervision of the Commissioner RD Madam Indra Mallo IAS & Director RDAs in the last two meetings the related line deptt were expressing difficulties on management of fund matter as the project is aimed at 70:30 ratio approach i.e. 30% fund will be from RURBAN mentioned as critical gap funding and 70% would be from various centrally sponsored, state sponsored funded project that are relevant to the scheme nature on priority sector as per components categories in cluster villages of the RURBAN Project.

Today the fundamental issue of HoDs in this consultative meeting is to obtain their opinion as to whether the convergence in this RURBAN shall be acceptable from their end to this effect have to draw up the minutes of this meeting as a supportive documents of ICAP approach for further submission to the state Govt i.e. SINA/SLEC for final assessment and submission to GoI Ministry of RD for final approval and at the same time ICAP documents with PRI vetted paper and green signal from converging deptt all together shall also be submitted to IIT Guwahati, the appointed state technical supporting agency for preparation of DPR.

Hence HoDs may please like to give their comments:-
Responding the points, DMO Dr. Radesh Tatan enquired that the identified demands on CHC/PHC/SUB-CENTRE should be in consonance with Indian health care standard norms and if so the project area is lagging on population criteria for establishment of these facilities and infrastructure. We have proposals for Sub-Centre at Kugging Village but the PHC proposal at Ngamming and up gradation/augmentation proposal of Tuting CHC is a matter of policy decision including fund sharing matter from NHM. Hence we left on to the decision making authorities and assured Health Deptt at Dist level is duty bound for any decision and direction from the higher authority. He assured convergence once the fund are demarcated at the level of the competent authority.

Sri L.K. Srivastava AE PHED representing EE/PHED wanted that on IHHL the cluster villages have limited units as the PHED survey and priority is for whole Upper Siang Dist therefore unit sharing is less as per target fixed in whole villages of the Dist. If from RURBAN & MGNREGA convergence approached are geared up for IHHL units can be raised the IHHL units and issue like 24x7 pipe line water supply, water treatment plant etc related to PHED sector it needs to draw up a conclusion as regards to implementation part and uniform estimates and as the deptt is better equipped with technical officers, man power, it would be proper if big project like treatment plant,

sewerage system, large size storage tank are taken up under technical guidance of the PHED.

All Departments like Agri /Horti /Forest /WRD /PWD /Fishery /Vety /Tourism/Skill Development/Industry have given a uniform opinion that at this stage from their higher authority convergence funds are not confirmed however in principle we agreed to co-operate convergence approach provided 70% fund from various centrally and state sponsored schemes are clearly demarcated for convergence with 30% fund of RURBAN Projects. At this stage we stand assured for co-operation and give consent and support of ICAP documents as it is for assuring better facilities in Rural Areas through RURBAN Mission.

Sri Tashi Nopi TA and designated Sector Officer (RURBAN) DRDA Yingkiang extend vote of thanks to the Chairman, HoDs for the deliberations given in this meeting. The attendance of HoDs are furnish herewith then Signature.
